

ERN Bond Pregnancy Survey Focus Meeting

Paris, September 16th, 2025

1/ REMINDER OF WP4 OBJECTIVES

- To provide highly specialized virtual multi-disciplinary advice on patients with RBDs or complex conditions using the Clinical Patient Management System and provide expert input for the new CPMS developments.
 - **To improve preconception, pregnancy, and postpartum care and advice for mothers and/or fetuses with RBDs (Task 4.4).**

2/ REMINDER OF THE MODIFIED DELPHI METHOD METHODOLOGY

- Systematic Review of literature and pregnancy questionnaire to establish a list of statements
- 1st round of vetting the statements online via the Likert Scale
- Statements with >80% (agree + strongly agree or disagree + strongly disagree) are considered consensual

3/ STATEMENTS

- Review of the statements considered as consensual
- Discussion of all other statements

4/ NEXT STEPS

Final online round to vet the statements discussed – deadline by end of October

- Finalize statements and write the article
and treatment of patients with skeletal dysplasias.
